Chief of Mission, Frankfurt

Attn: []

KEDCAP/Operational

AMOR/KEDCAP activities in Belgium utilizing
GAMISTA 1 personnel.

1. For conversations between [] and [] the latter discussed the question of KEDCAP-type activities with GAMISTA 2. The general type of program outlined by [] met with an enthusiastic reception. GAMISTA 2 felt that GAMISTA 1 personnel could be very useful in implementing a KEDCAP program.
2. After [] request that he write up a program or plan of action which might serve as a springboard for the work, GAMISTA 2 came up with the attached paper. The ideas expressed are, of course, very general and more specific methods of implementation are required. GAMISTA 2 admitted that a great deal of thought was necessary and his comments were made on merely a preliminary basis. [] asked GAMISTA 2 to give the matter considerable thought in order that he would be in a position to discuss concrete plans with the political officer who would subsequently contact him.
3. The stage is now set for [] to establish contact with GAMISTA 2. However, at the last meeting GAMISTA 2 said that he would be moving to a new apartment within the next month. Data on his new quarters will be forwarded [] as soon as available since the change of address also affects the financing arrangements for GAMISTA 2 and the whole GAMISTA 1 organization.
4. If [] requires any further action from Munich on this matter, please inform us and we will be glad to cooperate.
